

04-233

K-Love serves me as a member of the local community in that it provides an educational experience not available on commercial radio. If K-Love is replaced by a LPFM broadcaster providing other programming this educational experience would no longer be available. It serves the public interest in that it is not a commercial radio station, just as much as PBS is to television. Thus it is in the best interest of the community to leave K-Love as is!

Sincerely,

Patrick F. Jonas
